

# Craft Studio - Just for Fun

Activity Sheet

## Centre Piece

**Centre Piece** - Planning an event, but forgotten to order the floral centre pieces? We have just the activity to help with the finishing details. Centre Piece aims to get guests actively participating in a creative session with the end result of achieving a beautiful and lavish floral centre piece - well that's the idea!

### Overview

Designed as a evening table activity. Guests will given a brief demonstration on the basics of flower arrangement starting from the vase upwards using structure and composition, colours and styles with finishing touches.

### The Artists Brief:

Each table will be given a selection of flowers and an activity sheet of what we would like them to produce and how their centre piece will be judged. They will have all the necessary items in front of them in which to create their piece.

Each centre piece will be judged at the end of the session and the best overall table to achieve an outstanding finished piece will earn a bottle of bubbly to fill their glasses up!!
